SHORT LOCALS.

Brief Items of Interest Throughout the Town and County.

The Duncanville school will close Friday, May 9. There will be a picnic given at the schoolhouse on Saturday, May 10. The public is invited to attend with well filled baskets.

Governor Cooper last Wednesday afternoon granted an extradition from Governor Dorsey of Georgia for the return to that State of Adam Williams, who was arrested at Denmark, charged with the disposition of property under lien.

The Woman's Missionary society of the Baptist church will meet next Wednesday afternoon at 5 o'clock at the church. The subject for the meeting will be, "Utilizing Missionary Literature," and the leader will be Mrs. Lizzie M. Free. A full attendance is earnestly requested.

The regular monthly meeting of the F. M. Bamberg chapter, U. D. C., will be held on Wednesday, May 21, at the home of Mrs. G. Frank Bamberg. There will be important business at this meeting—election of officers—and all members are urged requested to be present.

Congressman Byrnes will be here Saturday to make the principal address at the annual memorial day exercises. "Jimmy," as he is known to all his friends, is a popular man in this section, and doubtless many of his friends from all sections of the county will be here to hear him Saturday.

The Columbia W. C. C. S. reports the discharge from the army of the following Bamberg county men: John J. Stroud, Bamberg; Stephen Hiers, Bamberg; William Hightower, Bamberg; John Copeland, Bamberg; William Williams, Bamberg; William R. McKenna, Denmark; Henry Murray Ray, Bamberg.

The annual memorial exercises at Rivers Bridge were held last Thursday, at which Mr. J. A. Wilgins, of Denmark, made the principal address. The usual decoration of the graves of the veterans was made, and Mr. Wiggins made one of the best addresses ever heard on these occasions. A large crowd, as usual, was present, quite a number attending from Bamberg.

The blind tigers will have to open their eyes if they would escape the clutches of the law, for Sheriff Ray is after them. Catching the ambergris of good old corn "likker" "somewhere" near Ehrhardt, Sheriff Ray located the offender, who proved to be an old colored woman, Eugenia Lightsey, who was operating a still. The amount of whiskey captured Tuesday was one gallon.

The Rev. J. S. Mingo, a well-known colored preacher, died at his home near Ehrhardt on Tuesday of last week, after a short illness. He leaves six children and a large number of relatives and friends to mourn his departure. Rev. Mingo was a good old man, and had a host of friends among the white people. His son, Sgt. R. W. Mingo, had just returned from service in the army. Another son, the Rev. P. E. Mingo, only recently completed his school term in Atlanta.

The revival meeting at the Baptist church was closed last Thursday night. Seventy-six additions were made to the church during the meeting, and two more were received at the following Sunday morning service, making a total of 78, about 55 of whom were received for membership by baptism. Most of this number received the ordinance of baptism Sunday morning and Sunday evening. The Rev. Geo. E. Davis, of Orangeburg, did the preaching during the revival.

Mr. W. A. Dickinson returned home a few days ago, after receiving his discharge from the navy. Mr. Dickinson enlisted as second-class seaman a little more than a year ago, and was attached to the U. S. S. Hartford, at Charleston. His promotion was rapid, and a few weeks before his discharge he had been made chief yeoman with a subsistence allowance of \$60 per month in addition to his salary, being then connected with the paymaster department. He has not yet decided upon his future plans.

Deductive Reasoning.

"Why do you people say, 'As dead as a door nail?' asked the Boob. "Why is a door nail any deader than a door?"

"Because it has been hit on the head, I suppose."—Cincinnati Inquirer.

Live every day so you can look at yourself in the mirror at night, and say, "You can work for me again tomorrow."

The World Needs Goods.

There is no denying the world's need for goods, nor the ability of the industry of the United States to supply a part of that need. The adjustments yet to be made are many. But they are the concern of statesmen and financiers; they are problems in government and mathematics, and not in production and consumption. The productivity of the world is admittedly higher than before the war, and its earning power and buying power is greater.

The conditions of trade may be changed by the rules of government, but the needs of peoples are permanent. And, as has been pointed out, the figures issued by the bureau of foreign and domestic commerce of the United States, indicating the great growth of the export trade of the nation, give little apparent reason for any permanent depression.

In spite of all the uncertainties of the reconstruction period, in spite of the embargoes and restrictions, in spite of the falling prices of commodities and the lack of ships, the exports for February reached a total of \$587,990,000. This indicates a total for the fiscal year ending June 30 of no less than \$6,500,000,000, which surpasses by more than two hundred millions the total for 1917, the record year heretofore.—Guaranty Trust Company.

MADE TWO RECORDS.

S. A. L. Engineer Knows How to Speed Engine and Sell Bonds.

Olar, May 3.—On April 25 Seaboard passenger train No. 2, driven by Frank Wilson, an engineer who has acquired the name of "Casey Jones" by the remarkable way in which he handles his engine, was charged with violating an ordinance of the town by going through at full speed and was summoned by Mayor O. B. Lain to answer the charges Thursday evening. The results were somewhat interesting. Engineer Wilson arrived in Olar early Thursday morning, and immediately surrendered himself to the mayor, telling the mayor he was aware of the fact that court would not convene until that night, but that he had done some good work selling Victory bonds in Savannah and he wanted to offer his services to Olar that day, being extremely anxious to see the loan put through. The services of Mr. Wilson were accepted and it was quickly seen that he could speed the Victory loan as quickly as he could his engine. He was instrumental in securing loans amounting to \$6,900 during the day. He not only sold bonds, but thoroughly convinced every man he talked with that there is at least one Christian running an engine over the Seaboard road. He is an enthusiastic prohibitionist, claiming that he has never taken a drink of whiskey, neither has he ever used tobacco and abhors profanity.

Mr. Wilson met his trial like a man. He explained to the court that he was the man running the engine, and that he was going as fast as his engine would carry him, but that he was ignorant of violating any law; that he had been running an engine 12 years and had never before been called into court. This order had been recently published, and it was an oversight of his that he did not see it. After making his statement, he asked the court's permission to say something in behalf of the bond issue. This privilege was granted him and he made an impressive address, which he claims was his first public speech. He was readily acquitted by the court.

"Casey Jones" made his departure this morning with a large bouquet of flowers. Many of his new friends were at the train to bid him goodbye. He says he is coming again, and Olar will be glad to have him.

SEE THE TANK FRIDAY.

Charleston Tank No. 2 Expected to Arrive Here Thursday.

Mr. S. C. Hollifield, Southern railway agent here, has received advice to the effect that the Charleston tank No. 2 will arrive here on Thursday afternoon or night. The tank will be at Barnwell on Thursday, and will be moved to Bamberg Thursday afternoon. Whether the tank will be brought here by the afternoon freight train or by the passenger is not stated, but Mr. Hollifield says that the tank will be here for display on the morning of Friday. The tank is scheduled to be here during the 9th and 10th.

The tank is accompanied by a tank crew who will demonstrate the machine. The people all over the county should take advantage of this opportunity to see a battle tank, one of those which went through the Hindenburg line.

ADDITIONAL LICENSE FEES.

County Receives Nearly \$700 From Insurance Premiums.

Mr. W. A. McSwain, State insurance commissioner, has paid into the various county treasuries a total of \$59,619.16 on account of additional license fees on premiums collected by insurance companies for the semi-annual period which ended December 31, 1918. The following are the amounts distributed to the counties in this section:

Aiken	\$1,057.99
Bamberg	698.18
Barnwell	927.59
Colleton	545.08
Hampton	444.10
Orangeburg	2,284.35

FOOD PREPARATION.

Home Demonstration Work Will Hold Meetings in County.

The following special meetings on food study and preparation will be held in the county under the auspices of the home demonstration work:

Mrs. Faust, county agent, will be assisted by Miss South, of Winthrop college, specialist on nutrition. She will lecture, and demonstrate school lunches and food for children. Charts showing the cuts of beef and the proper dressing of poultry will also be shown and explained. The public is invited to all meetings.

LOCAL CAMPAIGN PLANNED.

Soliciting Committees Appointed to Put Over Victory Loan.

Local arrangements were made on Monday afternoon for the victory loan campaign. Mr. J. D. Copeland, Jr., is the chairman for Bamberg, and Mr. Copeland has already arranged his soliciting committees, which will make a canvas of the city before Saturday.

At the meeting Monday arrangements were made for the transportation of the marine band, which will be here this morning, to various parts of the county. The band will first visit Denmark, where a concert will be given at 9 o'clock. Bamberg will be the next point visited, the band arriving here at 11 a. m. Dinner will be served here, after which the band will be carried to Ehrhardt for the meeting at 3, and then on to Olar for the last meeting of the day.

It is hoped to have some substantial subscriptions to report at the meeting at 11 o'clock today (Thursday), when subscriptions will be taken. The city's part of the loan is \$123,700, divided among the three banks of the city.

It was reported at the meeting that the banks of the city have agreed to help any prospective purchasers of bonds by the payment of 20 per cent. cash; the balance will be carried by the banks for six months at 5 per cent. interest. This will enable many to buy bonds who would not possibly otherwise be able to make the necessary financial arrangements.

MARINE BAND HERE TODAY.

Will Give Four Concerts at Patriotic Meetings in County.

To the People of Bamberg County: There are only a few days yet remaining before our opportunity to buy Victory bonds will be gone. Many bonds will have to be sold between now and Saturday night if Bamberg county is to go "over the top."

I fear that our people have not realized the seriousness of this obligation, and the absolute necessity of our county buying the amount of bonds which the government has allotted us. I cannot believe that our people would fail to subscribe for every dollar of our quota if they came fully to realize that this loan is one of victory and thanksgiving.

Think of the price that our boys have been called upon to pay! Think of the seventy thousand American boys, to whom life was as sweet as it is to us, but who, today, are sleeping on the plains of France in order that we might have this victory and this peace! I challenge you to think of these boys and refuse to buy bonds on the ground that it is not convenient at this time. If we fail to respond to this call, then they will have a perfect right to look upon us as having deserted them, and the cause for which they fought and died.

I am sure that Bamberg county will not be willing that this be said of them in the generations to come.

The banks of our county are making very liberal offers to carry the bonds for those who cannot pay cash. If you cannot pay for your bond now, see your bank and arrange to pay a part of it now, and carry the remainder until next fall. We must not and we cannot think of failure.

J. CALDWELL GUILDS,
County Chairman.

A Billet in France.

A bunch of boys sitting around the fire place at night after a hard day's work in the mud. A silence so thick that it could be cut with a knife. In comes a boy from another billet and exclaims:

"What is wrong? Come, sing us a song! Why sit with bowed down head? There are letters to write by the fire tonight. Don't act as if you were dead." And this is the answer: "Oh, I'm sick and spent, my spirit is bent, and it seems that I'm all alone. We have no fun though the war is done. I guess we will never go home."

"For here we stay day after day, and though I'm prepared for the worst, I remember the home that I left to roam when I joined the 81st. "There's a mother there with graying hair, a sister brave and true. There's a world of love from heaven above, and best of all there's you. "We all took a chance when we came to France. We trained at Pierrefontaine. While the shells flew we lay safe in the hay in a barn at Chateaufort."

"Then to Chatillon we came to the mud and rain. It seems we have been here for years. A lot of fools with a lot of mules, it would move even an angel to tears. "And here we may stay for a year and a day, a division forgotten and lost. While we haul heavy loads and repair the French roads, our Uncle will pay all the cost. "Sherman was right and I don't like to fight and I'm tired of corn Willie and beans. The army is here but when I'm mustered out, well! maybe I'll join the marines."

EUGENE W. WALKER, Sgt., 318 F. A. Supply Co., A. P. O. 791, A. E. F.

Some Job for Dad.

A school teacher received the following note: "Dear Madam, Please excuse my tommy today, he won't come to skule because he is acting as timekeeper for his father, and it is your fault. U gave him a example, if a field is 5 miles around how long will it take a man walking 3 1-2 miles per hour to walk 2 1-4 times around it? Tommy ain't a man, so we sent his father. They went early this morning, and father will walk around the field and tommy will time him, but please don't give my boy such examples agin, because my husband must go to work every day to support his family."

DAY CURRENT ON.

Electric Generator Installed at the Cotton Mill Last Week.

Bamberg's long hoped-for day electric current is now a realized fact. Monday morning the current was turned on from the Bamberg Cotton Mills company, where a generator was installed Saturday by the commissioners of public works. The commissioners have made an arrangement with the cotton mill to operate the generator at a fixed price per kilowatt hour, this price being paid by the commissioners. The patrons of the power plant will pay the regular rate for the current consumed.

The city power house is operated until the cotton mill starts in the morning, when the current is turned on from the mill. The current is off during the noon dinner period. In the afternoon the power house is started in time to switch on the current when the mill closes for the day. It is understood that the power house will be operated on Saturday, while the mill is closed down.

Lovers.

Fred was a very precise and circumspect young man, and when he came to work one morning with a blackened eye and one cheek swollen to twice its natural size, the other employees were considerably mystified.

"It's nothing," he replied, in answer to the many curious looks from his fellow clerks. "It was just a lovers' quarrel—a lovers' quarrel, that's all."

"But Fred," cried one of them, "you can't possibly mean to tell us that little Alice Reynolds did all that to you!"

"Oh, no," replied Fred with reluctance. "It was her other lover."
